Forecast for Monday 19 Jun 2023

Weather: Rather cloudy with low cloud in the west first thing and some showers during the early hours through to mid-morning. Cloud gradually breaking to give plenty of sunny spells thereafter though the odd shower still possible, which could be heavy and perhaps thundery. Dry through the evening with some late sunshine.

Chance of cloud-free hill tops above 600m: 80% but 60% in the south and west at first.

Low cloud and visibility: Low cloud with bases 400-500 m first thing, gradually lifting and breaking above the summits by midmorning though may shroud the tops for a time or lower in any showers. Visibilities may drop to moderate in cloud or rain, but otherwise very good especially during the afternoon.

Meteorologist's View

UV Levels remain high with warm temperatures expected, even at height, so adequate hydration and sun protection is essential. A chance of a heavy shower possible though much more isolated than of late.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Sat 17 Jun 2023	0mm	0mm	0mm

Forecast for Tuesday 20 Jun 2023

Weather: After a dry start, by morning there is a chance of heavy thundery outbreaks of rain moving up from the south through, though there is low confidence in the detail and timing of this system. By late afternoon, this may clear to leave some sunny spells but also allowing for heavy showers to develop, these gradually easing into the evening.

Maximum wind: Variable, mainly east to southeasterly 5-10 mph.

Chance of cloud-free hill tops above 600m: 60% rising by late afternoon.

Low cloud and visibility: Low cloud associated with outbreaks of heavy thundery rain, with bases down to 400 m and possibly continuing into the afternoon. Moderate to poor visibilities in heavier rain, dropping the base lower. Otherwise good visibilities in and around any showers.

Temperature: **Valleys:** Plus 15 Celsius rising to plus 20 Celsius.
At 600m: Plus 15 Celsius.
Freezing level: Above summits.
